PROFILE

Digital Sciences engineering student at Toulouse INP-ENSEEIHT. I build web applications from data models to user interfaces, with experience across frontend (React, Node.js) and backend technologies (Flask, FastAPI, PostgreSQL). Seeking a frontend or full-stack software engineering internship.

SKILLS

Web development: React, Node.js, Express, HTML, CSS, Tailwind CSS, Bootstrap, Flask, Jinja2
Languages & APIs: JavaScript, TypeScript, Python, C, FastAPI, REST
Tools & data: Git, GitHub, Docker, PostgreSQL, virtual machines, web scraping
Artificial intelligence: PyTorch, TensorFlow, LangChain, YOLOv8, FAISS, Google Gemini API
Languages: French (native), English (B1)

PROFESSIONAL EXPERIENCE

Web Development Engineering Intern | Mar-Aug 2026
Valione Services | Yaounde, Cameroon
- Developed Microsoft 365 management and auditing dashboards for Identity, Device, Teams, SharePoint, OneDrive, Exchange, Intune and Power Platform.
- Designed a real-time conversational interface with SSE streaming and searchable conversation history.

IT Intern | Feb-Aug 2025
MINEPAT, DGEPIP | Yaounde, Cameroon
- Built a Python and Flask web application to collect and analyse economic data about Cameroon.
- Automated data collection with Beautiful Soup and supported related document analysis.

Digital Customer Service & Sales Associate | 2023-2026
Retail | Cameroon
- Advised customers and handled online and in-store sales; used digital tools to support conversion.

Mathematics & Computer Science Teacher | Jun-Aug 2023
Intelligentsia Corporation | Yaounde, Cameroon
- Prepared students for competitive engineering-school entrance exams and taught computer science and general knowledge.
- Adapted learning materials and lesson plans to each class.

SELECTED PROJECTS

- **CacaoDetect:** cocoa disease detection using computer vision (YOLOv8, FastAPI, React, PostgreSQL).
- **Recommendation system:** MovieLens film recommendations with LightGCN and a Flask inference interface.
- **Visual search engine:** image similarity search using ResNet50, FAISS and PCA.
- **Collective vision assistant:** crosswalk and traffic-light detection for visually impaired users (YOLOv8n).

EDUCATION

Engineering Degree in Digital Sciences, Toulouse INP-ENSEEIHT | 2026-2028 | Double degree, Networks track
Computer Engineering, National Advanced School of Engineering of Yaounde (ENSPY) | 2022-2026
Science Baccalaureate (Mathematics & Physical Sciences), Lycee General Leclerc | 2022

AWARDS & CERTIFICATIONS

Top of class in first, second and third year at ENSPY; Academic Excellence Award from the President of the Republic (2024, 2025).
Understanding AI (DataCamp, 2025) | Intermediate Python (DataCamp, 2025) | Generative AI (Coursera, 2024) | Responsive Web Design (freeCodeCamp, 2023)
